Dear Resident,

Welcome to Manoir Camelia,

On behalf of the Staff and Management, we would like to welcome you to your new home.

To assist you in the transition, we have prepared the attached Residents' Guide. This guide will familiarize you with various suite and building features, provide important telephone numbers, and also hopefully answer many of your questions.

The Residents' Guide also includes the occupant's section of the building's **Fire Safety Plan**. As preparation and knowledge is our best defense, we would kindly ask that you review this section carefully.

If, after reviewing the information, you still have some unanswered questions, or if there are any items that you wish to discuss, please do not hesitate to contact the Building Manager's Office at (514) 489-6441

We are committed to providing you with a comfortable and carefree living environment that embodies the spirit of home and community. Your feedback is welcome as we constantly strive to be your Landlord of choice.

Sincerely,

Howard Szalavetz

LAUNDRY AND DISHWASHERS

The building is equipped with laundry facilities located on each floor of the building and is open from 7:00 a.m. to 10:00 p.m. Promptly remove laundry when finished.

The plumbing in the building is not designed to accommodate the private use of individual washing machines or dishwashers. The use of such appliances may cause deviations in water temperature and flooding. Therefore, the use of in-suite washing machines and dishwashers is strictly prohibited.

LOCKS & KEYS

At the time you receive possession of your new residence, you will receive one suite key and mailbox key that must be returned at the end of your tenancy. All suites must remain accessible so that access may be gained in the event of an emergency.

FLOWER BOXES

We welcome balcony planting. For safety, place flower boxes on the inside of the balcony railing only. Do not water to excess.

BICYCLES

Bicycles are not permitted through the front entrance door. Garage entrance only. .

CORRIDOR OBSTRUCTIONS

Do not place a doormat or leave boots and shoes outside your door. Shopping carts etc. are hazardous in an emergency. Be considerate and return all shopping carts to the garage area once you are finished using them.

POWER FAILURE

The building is equipped with an emergency generator that will supply electrical current to most common area lighting fixtures, the fire warning system, one elevator, and selected mechanical assemblies in a power outage. Individual suites will remain without power until it is restored.

GENERAL TIPS

When entertaining, particularly in the summer months, be aware that loud voices can easily carry into neighbouring suites particularly from hallways and balconies.

- Where will a lit cigarette flicked carelessly over the balcony rail land? Into the apartment below? Your carelessness can spell disaster for an innocent person. Butt out cigarettes properly.
- Never overload electrical circuits.
- Do not run extension cords under carpeting.
- Close windows when leaving your suite. A sudden rainstorm can seriously damage your suite and furnishings.
- Ensure all faucets are tightly closed when leaving your suite.

- Weather stripping your suite door negates the building pressurization and makes your suite more difficult to heat. It also reduces the capacity of your exhaust fans thereby keeping odors within your suite.
- When leaving for vacation or going to a sunny climate for the winter, please notify the management office. Remember not to turn off your heat. You can reduce the temperature to a minimum of 15 C.

PLEASE NOTE THAT THE AFOREMENTIONED SECTIONS CONTAIN HIGHLIGHTS FROM THE BUILDING RULES AND REGULATIONS SIGNED AND ATTACHED TO YOUR LEASE-THE ABOVEMENTIONED HIGHLIGHTS ARE NOT AN EXHAUSTIVE LIST. RESIDENTS SHOULD CAREFULLY READ AND ABIDE BY ALL BUILDING RULES AND REGULATIONS.

SMOKE ALARMS

Your residence has been equipped with a smoke alarm(s) that is:

CONNECTED TO A DIRECT CURRENT IN MOST UNITS HOWEVER SOME UNITS ARE BATTERY OPERATED(TENANTS ARE RESPONSIBLE TO REPLACE THE BATTERY WHEN NEEDED)

For your protection, you are encouraged to take part in ensuring that the smoke alarms are operational and to co-operate with the management in carrying out the necessary testing and maintenance.

Here are some steps that you can take:

- Notify management if the smoke alarm is damaged and make arrangements for the repair or replacement of the unit
- When you have been absent for seven or more days (such as vacation), arrange for the smoke alarms to be tested by a friend or family member to ensure that the smoke alarms are operable.

The Fire Code specifies that “**no person shall intentionally disable a smoke alarm so as to make it inoperable**” A resident or any other person who intentionally disables a smoke alarm is guilty of a provincial offence and may be subject to a fine.

Our maintenance people, along with the Fire Department periodically test the fire alarms. The tests are announced in advance. During the testing, the alarms sound intermittently, and in a genuine fire they sound continuously.
